LOUIS MIGUEL TERRAGO

BS INFORMATION TECHNOLOGY STUDENT | ASPIRING FULL STACK DEVELOPER

Valenzuela City, Philippines • louismiguelterrago@gmail.com

GitHub: github.com/wheeze-cmd | Portfolio: louis-dev.site.je

PROFILE

Third-year Bachelor of Science in Information Technology student with a Computer Programming background and hands-on experience in web development, collaborative technology projects, quality assurance, and technical presentations. Brings leadership, organization, and problem-solving skills, with additional administrative experience in file retrieval and records sorting.

EDUCATION

Bachelor of Science in Information Technology | Pamantasan ng Lungsod ng Valenzuela (PLV) | Third-Year Student

Senior High School – Computer Programming Strand | Electron College of Education

ACHIEVEMENT

Top 11 – Ideathon 2026 | CEISSAFP | Camp General Emilio Aguinaldo

LEADERSHIP & PROJECT EXPERIENCE

Project NEXUS – Machine Learning Situational Awareness Platform | Pitch Leader & Quality Assurance (QA)

Led the project pitch and contributed to reviewing the concept, system flow, and presentation for clarity and consistency. The proposed platform explores consolidating existing AFP communications traffic to support situational awareness in disaster response with AI integration.

Estrel's Caramel Cakes – E-Commerce Website | Collaborative academic project

Contributed to an online cake-ordering platform with scheduled customer pickup, using React, TypeScript, Prisma, and PostgreSQL.

Capital Barbershop – Appointment Booking Website | Web development project

Developed a web-based appointment booking system with Supabase-backed appointment data management and administrative monitoring.

WORK EXPERIENCE

On-the-Job Trainee – Dental Clinic | Valenzuela City

Assisted with locating, retrieving, and sorting patient files; helped keep records organized for efficient retrieval and supported routine administrative tasks.

TECHNICAL SKILLS

Web Development | HTML, CSS, JavaScript, PHP

Programming | Java, Python

Databases | MySQL, PostgreSQL, Supabase

Frameworks & Tools | React, Vite, Prisma, Three.js, Git, GitHub, Visual Studio Code

Design & Multimedia | Graphic Design, Video Editing, UI/UX Design
